

SANGOLA MAHAVIDYALAYA SANGOLA
DEPARTMENT OF COMPUTER SCIENCE AND APPLICATION
B.Sc(ECS) III Subject – VISUAL PROGRAMMING DATE- 09/08/2022
Practical /Journal Assignment-01

Sr. No	Program Description	Test Data	Expected Output
1	Write a C# Program to perform basic arithmetic operations on two numbers.	Input 2 numbers first no.- 10 Second no.- 5 (Try with different no.s)	Addition = 15 Subtraction= 5 Multiplication= 50 Division=2
2	Write a C# Program to find average of three number.	Input 3 integer numbers A=10, B=20, C=30 (use data type float then accurate o/p will display)	Avg=20
3	Write a C# Program to calculate perimeter (circumference) of Circle.	I/p radius r=2	Perimeter=12.6
4	Write a C# Program to calculate area of Circle	I/p radius r=2	area of Circle=12.56
5	Write a C# Program to calculate area of Triangle.	I/p base b=4 Height h= 4	area of Triangle=8
6	Write a C# Program to calculate area of Square.	I/p side L=4	area of Square= 16
7	Write a C# Program to find max number between two numbers using ternary / conditional Operator.	I/p two numbers	If value of a is > b Then a is max

8	Write a C# Programs to check no. is positive or negative, Max between Two numbers, entered year is leap or not etc.	1) Input no. n=10 2) Input no. a=10,b=20 3) Input year 2004	1) no. is positive 2) b is max 3) leap year
9	Write a C# menu driven Program to perform basic arithmetic operations using Switch Statement.	Using switch statement user can enter choice	Execute particular choice
10	Write a C# Program to Find the area of Circle, Square, rectangle by using Switch Statement.	Give choice 1. Area of Circle 2. Area of square 3. Area of rectangle	O/p result for particular choice
11	Write a C# Program to generate electricity bill using else-if-ladder statement.	Enter used units Calculate electricity bill	o/p bill amount
12	Write a C# Program to Calculate library fine amount by using else-if-ladder statement.	Enter days and fine rate Calculate library fine	Amount of library fine
13	Write a C# Program to Find minimum number between two numbers.	Input number a=10 ,b=20	A is Min
14	Write a C# Program to Find maximum number between two numbers.	Input number a=30 ,b=20	A is max
15	Write a C# Program to Find minimum number between three numbers.	Input number a=10, b=20, c=30	A is max

16	Write a C# Program to Find maximum number between three numbers.	Input number a=10, b=20, c=30	C is max
17	Write a C# Program to Check entered number is even or odd.	Input number n=6	Number is even
18	Write a C# Program to Check entered number is even or odd using conditional operator	Input number n=7	Number is odd
19	Write a C# Program to Find out odd numbers between 1 to 500	Use loop for n=1 to 500	Display n
20	Write a C# program to Find out even number between 1 to 500	Use loop for n=1 to 500 If n%2==0 if true Display n	Display n
21	Write a C# program to add all odd numbers from 1 to 20 .	using foreach statement if n%2!=0 then add it in sum	Display sum
22	Write a C# Program to add all Even numbers from 1 to 20 .	using foreach statement if n%2==0 then add it in sum	Display sum
23	Write a c# program to calculate grade of student according to obtained marks	Use else-if ladder	Display grade
24	Write a c# program to display Floyds Triangle.	Use nested for loops	1 01 101 0101 10101

25	Write a separate c# program to display given pattern.	Use nested for loops	
<pre> 0 1 0 2 1 0 3 2 1 0 4 3 2 1 0 5 4 3 2 1 0 6 5 4 3 2 1 0 7 6 5 4 3 2 1 0 8 7 6 5 4 3 2 1 0 9 8 7 6 5 4 3 2 1 0 1 1 2 1 2 3 1 2 3 4 1 2 3 4 5 5 4 3 2 1 5 4 3 2 5 4 3 5 4 5 1 2 3 4 5 6 7 8 9 10 1 2 3 4 5 1 2 3 4 1 2 3 1 2 1 1 2 1 2 3 1 2 3 4 1 2 3 4 5 @ @@ @@@ @@@@ @@@@@ @@@@@@ @@@@@@@ @@@@@@@ @@@@@@ @@@@ @@ \$ </pre>			
26	Write a C# Program to find factorial of entered number.	Input n=4 Fact=4x3x2x1	Factorial=24
27	Write a C# Program to find Sum of digit of entered number	Input 123	o/p 6
28	Write a C# Program to check entered number is Armstrong or not.	Input 153	No. is Armstrong
29	Write a C# Program to find out Armstrong numbers between 1 to 500	Input number 1 to 500	153,370,371, 407

30	Write a C# Programs to print reverse number of entered number.	Input number 123	o/p 321
31	Write a C# Program to check entered number is palindrome or not	Input number 121 I/p number 123	No. is palindrome No. is not pali.
32	Write a C# Program to find out palindrome numbers between 1 to 500	I/p number 1 to 500	0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 22, 33, 44, 55, 66, 77, 88, 99, 101, 111, 121, 131, 141, 151, 161, 171, 181, 191, 202.....
33	Write a C# Program to check entered number is perfect or not.	I/p n=28	No. is prefect
34	Write a C# Program to find out perfect number between 1 to 500	I/p number 1 to 500	6, 28.....
35	Write a C# Program to find out strong number between 1 to 500	I/p number 1 to 500	1, 2, 145,
36	Write a C# Program to check entered number is strong or not	I/p n value 145 I/p n value 100	Number is strong Number is not strong
37	Write a C# Program to display Fibonacci series up to given numbers.	Input 21	0, 1, 1, 2, 3, 5, 8, 13, 21...

38	Write a C# Program to calculate the gross salary; the person's basic Salary is input through the keyboard, consider His D.A is 40%, HRA is 20% and PPF is 10% of the basic salary.	Input basic salary Ex.10000	O/P-15000
39	Write a C# Program to demonstrate Boxing and UnBoxing	-----	----
40	Write a C# Program to demonstrate Enumeration.	Declare enum And access it inMain()	
41	Write a C# Program to perform sum of array elements	-----	----
42	Write a C# Program to demonstrate various operations on Array using in built methods.	-----	----
43	Write a C# Program to demonstrate various operations on String using in built methods.	-----	----
44	Write a C# Program to demonstrate Pass By Value technique	-----	----
45	Write a C# Program to demonstrate Pass By Reference Technique	-----	----

46	Write a C# Program to demonstrate Output parameters.	-----	----
47	Write a C# Program to demonstrate Variable length parameters to method.	-----	----
48	Write a C# Program to initialize 2D Array from accept Input from user and print it on console.	-----	----
49	Write a C# program which stores even items & odd items in separate Arrays from 1D array	Create array having 1-50 numbers and retrieve it and perform separation of odd and even numbers.	----
50	Write a C# Program to perform Addition of TWO matrices.	-----	----
